

# TradePizza

"Get what you want, for something you have"

## =====SET-UP INSTRUCTIONS=====

\*\* Must have mongoDB and nodeJS installed and file paths set up correctly

- 1) Open the zip file and extract the folder to anywhere
- 2) Open command prompt and navigate to the folder via cd commands so you are in the folder with server.js
- 3) Type 'npm install' (this should install the necessary modules)
- 4) Type 'mongod --dbpath data --port 27017'
- 5) Open another command prompt and navigate to the same folder via cd commands
- 6) Type 'node server.js'
- 7) Open localhost:3000 on your browser and the application should be shown
